

Novozymes Nitragin® Gold Technology

Nitrogen-fixing inoculant for alfalfa,
sweet clover and clover

Add value to your seed and for your seed customers by requesting Nitragin® Gold Technology from your processor.

Benefits of using Nitragin® Gold Technology

- **Seed adhesion:** Micron-sized particles can help to provide superior seed adhesion and minimal “dusting off”
- **Ease of application:** Can be used in either a continuous flow or batch treating system
- **Yield:** Specially selected rhizobia strains result in high levels of nitrogen fixation for maximum yield potential
- Nitragin Gold® Technology is compatible with many seed treatment chemistry. See Seed Treatment Compatibility for the most current information at novozymes.com/bioag.
- **OMRI certified:** Products with Nitragin® Gold Technology for alfalfa and sweet clover are OMRI certified (for U.S. and Canada only)

Product details

Packaging may vary.

Nitragin® Gold Alfalfa and Sweet Clover Pre-Inoculant

Active ingredients	Packaging	Application rate	Case treats	Crop
