Novozymes TagTeam® Soybean Granular Inoculant

Product features

Nitrogen-fixing inoculant for soybeans

TagTeam[®] Soybean Granular Inoculant combines the phosphate-solubilizing microbe *Penicillium bilaiae* with a specially selected nitrogen-fixing rhizobia. It can create more fixed nitrogen and improve access to the relatively immobile phosphate in the soil, helping to provide the best yield potential for your soybeans. In 2016, a growth chamber study showed that combining LCO with rhizobia increases the rate of early soybean nodulation, resulting in 2X as many nodules compared to rhizobia alone.

Benefits of using TagTeam® Soybean Granular Inoculant

- Enhances nutrient availability including phosphate, which supports root and shoot growth, as well as nitrogen
- Improves fertilizer efficiency

- Greater opportunity for the development of nitrogen-fixing nodules
- Increases nitrogen fixation through nodule formation

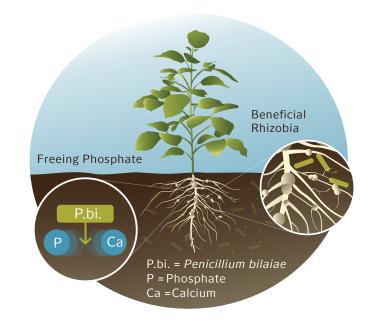

How the technology works

1. Freeing Phosphate

Penicillium bilaiae releases bound mineral forms of soil and fertilizer phosphate, making it more available for the plant to use.

2. Beneficial Rhizobia

Specially selected rhizobia form a beneficial relationship with the plant, creating nodules which help fix atmospheric nitrogen.

Product details

Packaging may vary.

TagTeam® Soybean Granular Inoculant

Active ingredients	Packaging	Application rate	Case treats
100 million (1.0 X 10 ^s) viable cfu/g <i>Bradyrhizobium japonicum</i>	39.7 lbs	Varies by	Varies by row spacing
100 thousand (1.0 X 10 ^s) cfu/g <i>Penicillium bilaiae</i>	582.4 lbs	row spacing	

Always read and follow label directions

Application rates for TagTeam [®] Soybean Granular Inoculant										
Row spacing	6.0 in	7.0 in	8.0 in	9.0 in	10 in	12 in	15 in	24 in	30 in	
Application rate	7.1 lbs/ac	6.2 lbs/ac	5.4 lbs/ac	4.7 lbs/ac	4.3 lbs/ac	3.6 lbs/ac	2.9 lbs/ac	1.8 lbs/ac	1.4 lbs/ac	
Area treated per 582.4 lb bag	82 ac	93.9 ac	107.9 ac	123.9 ac	135.4 ac	161.8 ac	200.8 ac	323.6 ac	416 ac

About Novozymes

Novozymes is the world leader in biological solutions. Together with customers, partners and the global community, we improve industrial performance while preserving the planet's resources and helping build better lives. As the world's largest provider of enzyme and microbial technologies, our bioinnovation enables higher agricultural yields, low-temperature washing, energy-efficient production, renewable fuel and many other benefits that we rely on today and in the future. We call it Rethink Tomorrow.
