

Cell-Tech[®] NS Peat

Soybean

Novozymes Cell-Tech[®] contains specially selected rhizobia that provide highly effective nodulation to enhance nitrogen fixation, even in cooler soils, increasing yield potential as planting conditions change.

FEATURES

2.5 x 10⁸ viable cfu/g *Bradyrhizobium japonicum*

Highly effective *bradyrhizobium*

Grower applied on-seed application

Economical soybean inoculant

Two-day planting window when applied alone

BENEFITS

- Supports early vigor
- Enhances nitrogen fixation
- Improves yield potential
- Superior seed adhesion

APPLICATION RATE

3.3 oz/unit of seed (140k seeds)
6.6 oz/cwt of seed

PACKAGING

4 x 6.2 lb bag
