

Cell-Tech[®] Liquid

Pulses

Novozymes Cell-Tech[®] contains specially selected rhizobia that provides highly effective nodulation to enhance nitrogen fixation, even in cooler soils, increasing yield potential as planting conditions change.

FEATURES

2 x 10⁹ viable cfu/g *Rhizobium leguminosarum*

On-seed or in-furrow application

Economical pulse inoculant

BENEFITS

- Supports early vigor
- Enhances nitrogen fixation
- Improves yield potential

APPLICATION RATE

2.5 oz per bushel

PACKAGING

4 x 3 L
9.8 L bottle
