

TagTeam® BioniQ® Pro Pea & Lentil Granular

Pulses

Novozymes TagTeam® BioniQ® is a next generation inoculant that combines four active biologicals to improve nodule formation, increase nitrogen fixation and enhance efficiency of phosphate use to improve yield potential.

FEATURES

1.3 x 10⁶ cfu/g *Penicillium bilaiae*

1.3 x 10⁸ viable cfu/g *Rhizobium leguminosarum*

2 x 10⁶ viable cfu/g *Bacillus amyloliquefaciens*

4.7 x 10⁵ cfu/g *Trichoderma virens*

Four living biologicals in one product

Convenient package size

Improved availability of nitrogen, phosphate and potassium

Phosphate-solubilizing biological

BENEFITS

- Vigorous root growth and shoot development
- Enhances nitrogen fixation
- Improves the efficiency of soil and fertilizer phosphate use

APPLICATION RATE

6 in, 5.5 lb/acre	10 in, 3.3 lb/acre
7 in, 4.7 lb/acre	13 in, 2.7 lb/acre
8 in, 4.1 lb/acre	15 in, 2.2 lb/acre
9 in, 3.6 lb/acre	

PACKAGING

39.7 lb bag
582 lb tote
1,000 lb tote
