

TagTeam[®] LCO Pea & Lentil Liquid

**Pulses**

Novozymes TagTeam[®] LCO is a triple-action inoculant that combines a specially selected rhizobia, a phosphate-solubilizing biological and the proven performance of LCO, together they improve your crop's access to nutrients and maximize yield potential.

FEATURES

1 x 10^{-7%} lipochitooligosaccharides

7.2 x 10⁸ cfu/g *Penicillium bilaiae*

2 x 10⁹ viable cfu/ml *Rhizobium leguminosarum*

Phosphate-solubilizing biological

Powerful nodulation signaling molecule

On-seed liquid application

BENEFITS

- Vigorous root growth and shoot development
- Increases mycorrhizal associations
- Enhances nitrogen fixation
- Improves the efficiency of soil and fertilizer phosphate use

APPLICATION RATE

2.5 fl oz per bushel; 5 fl oz per 100 lbs of seed

PACKAGING

4 x 101.4 fl oz inoculant

4 x 2.0 fl oz Active powder

4 x 17.9 fl oz Active liquid
