

TagTeam® Pea & Lentil Granular

Pulses

Novozymes TagTeam® inoculant combines a phosphate-solubilizing biological and nitrogen-fixing rhizobia to improve access to phosphate and nitrogen to maximize yields in your crop.

FEATURES

1.3 x 10⁶ cfu/g *Penicillium bilaiae*

1.3 x 10⁸ viable cfu/g *Rhizobium leguminosarum*

Two living biological actives in one product

Phosphate-solubilizing biological

BENEFITS

- Vigorous root growth and shoot development
- Enhances nitrogen fixation
- Improves the efficiency of soil and fertilizer phosphate use

APPLICATION RATE

6 in, 5.5 lb/acre	10 in, 3.3 lb/acre
7 in, 4.7 lb/acre	13 in, 2.7 lb/acre
8 in, 4.1 lb/acre	15 in, 2.2 lb/acre
9 in, 3.6 lb/acre	

PACKAGING

39.7 lb bag
