

Cell-Tech[®] Peat

Peanuts

Novozymes Cell-Tech[®] contains specially selected rhizobia that provide highly effective nodulation to enhance nitrogen fixation, even in cooler soils, increasing yield potential as planting conditions change.

FEATURES

1 x 10⁸ viable cfu/g *Bradyrhizobium sp Arachis*

Highly effective *bradyrhizobium*

Economical peanut inoculant

Grower applied on-seed

Great option for double inoculation

BENEFITS

- Improves nodulation
- Enhances nitrogen fixation
- Increases yield potential

APPLICATION RATE

6.6 oz treats /cwt

PACKAGING

24 x 6.6 oz packages
