

TagTeam[®] LCO

Peanuts

Novozymes TagTeam[®] LCO is a triple-action inoculant that combines a specially selected rhizobia, a phosphate-solubilizing biological and the proven performance of LCO, together they improve your crop's access to nutrients and maximize yield potential.

FEATURES

7.2 x 10⁸ cfu/g *Penicillium bilaiae*

2 x 10⁹ viable cfu/ml *Bradyrhizobium sp Arachis*

1 x 10^{-7%} lipochitooligosaccharides

 **Powerful nodulation signaling molecule**

 **Highly effective *bradyrhizobium***

 **Phosphate-solubilizing biological**

 **Enhances early mycorrhizal colonization**

 **Releases bound mineral forms of phosphate**

BENEFITS

- Vigorous root growth and shoot development
- Increases mycorrhizal associations
- Enhances nitrogen fixation
- Improves the efficiency of soil and fertilizer phosphate use

APPLICATION RATE

Varies by row spacing;
see label for more information

PACKAGING

4 x 1.1 gallon jug
