

Nitragin[®] Gold Alfalfa & Sweet Clover

**Alfalfa/
Sweet Clover**

Novozymes Nitragin[®] Gold contains specifically selected rhizobia that enhance nitrogen fixation to maximize fertility investment.

FEATURES

3 X 10⁸ viable cfu/g *Sinorhizobium meliloti*

 **OMRI-Listed**

 **Superior seed adhesion**

 **Suitable for continuous flow or batch treating systems**

 **Broad seed treatment compatibility**

 **High rates of nitrogen fixation**

BENEFITS

- Improves root systems development for better nutrition and water uptake
- Enhances nitrogen fixation
- Improves plant health for greater ability to handle environmental pressures
- Higher ROI through increased forage yield

APPLICATION RATE

1 package treats 5,000 lbs of seed
13.34 oz/cwt

PACKAGING

1 x 42 lbs
