

Nitragin[®] Gold Clover

Clover

Novozymes Nitragin[®] Gold contains specifically selected rhizobia that enhance nitrogen fixation to maximize fertility investment.

FEATURES

8 x 10⁷ viable cfu/g *Rhizobium leguminosarum biovar trifolii*

Superior seed adhesion

Suitable for continuous flow or batch treating systems

Broad seed treatment compatibility

BENEFITS

- Improves root systems development for better nutrition and water uptake
- Enhances nitrogen fixation
- Improves plant health for greater ability to handle environmental pressures
- Higher ROI through increased forage yield

APPLICATION RATE

- 1 package treats 5,000 lbs of red clover seed
13.34 oz/cwt
- 1 package treats 2,500 lbs of white clover seed
26.6 oz/cwt

PACKAGING

1 x 42 lbs
